Planning a School Community Trip to the New York Aquarium

Here are some simple steps to help make your School Community trip to the New York Aquarium a rich and enjoyable experience for Urban Advantage students and their families:

Ideally, visit the Aquarium before your visit with your families, using your Teacher/Parent Coordinator Vouchers (ivory colored).

It is best to come with a plan for your field trip. While it is possible to view everything the Aquarium has to offer in one visit, consider having a focus to your trip by having your families share in an activity to observe mammal behaviors or explore how species interact in our coral exhibits.

Always know how to get to where you are going! You can find travel directions, Aquarium hours, and special show and feeding times at nyaquarium.com.

The New York Aquarium continues to transform, now with our new PlayQuarium and Spineless exhibit open to visitors. The Ocean Wonders: Sharks! exhibit is an excellent opportunity to explore local wildlife, including more than five shark species! Our larger marine residents, including our sea lions, harbor seals and penguins, are out and about at our Sea Cliffs exhibits. Don't forget about the dives and flips at the Sea Lion Celebration in our Aquatheater!
